AMS-WW-T-700/3
Technical Datasheet

Drawn Aluminium Tubing

Typical Applications

• Used extensively in the aerospace sector
• Motorsport
• Wheels

Product Description

AMS-WWT-700/3 drawn aluminium tubing is widely used in the aerospace sector due to the alloys higher strength combined with good machinability. The material has a superior grain structure and is a popular alloy for high strength tubing applications.

Corrosion Resistance

Fair

Key Features

• Greater strength than 2024 and 2017
• Good machining capabilities
• Good fatigue resistance
• Fair cold formability
• Weldable only by friction welding
• Fair corrosion resistance

Availability

Pipe, tube

Machinability

Good
