Typical Applications

- Aerospace fabrication
- Panels
- Bodywork
- Blanking panels
- Space frames

Product Description

Austenitic chromium-nickel stainless steel stabilised with titanium. The material is available in cold rolled or cold rolled and tempered condition and is suitable for medium strength components requiring good corrosion resistance and cold workability. Good weldability. Tensile strength (Rm) 800-1100 N/mm².

Key Features:

- Suitable for medium strength components
- Supplied in cold rolled or cold rolled and tempered
- Good cold workability
- Good corrosion resistance
- For use in applications requiring good corrosion resistance

Corrosion Resistance

Good corrosion resistance

Weldability

Good weldability

Availability

Sheet, strip

Related Specifications

- MSRR 6565
